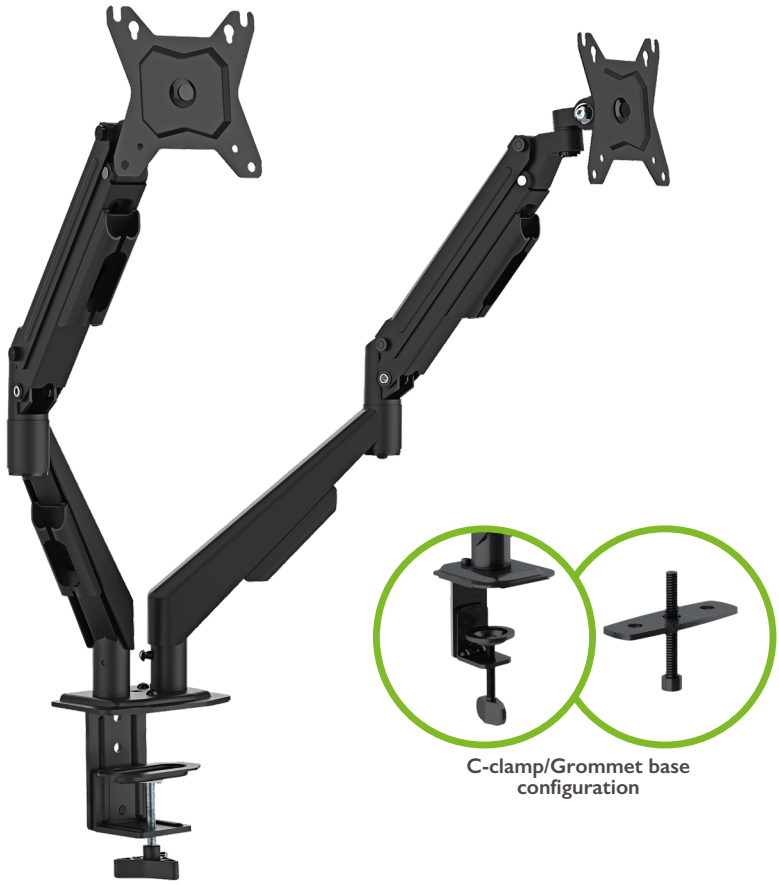
Dual monitor mount

with spring mechanism



C-clamp/Grommet base configuration

Effortless full-motion adjustment

Saving is always a wise move, and you know it. So, save space with Klip's **KMM-410** monitor mount and clear your desk for other stuff. This sturdy metal bracket holds two (2) monitors, an ideal model for multitasking jugglers. Its spring mechanism is designed to allow both arms to easily extend, retract, swivel and tilt so you can have a comfortable visual angle even if, for some unfathomable reason, you work hanging from the ceiling (if you don't, please don't try it!). BTW, you'll save money too. No KlipXtreme product will make you touch no piggy bank.

Highlights

- Sturdy, professional-grade dual monitor mount with spring mechanism.
- Fits flat or curved screens of up to 32 inches, weighing up to 17.6 lb with complete stability.
- VESA plate allows to mount your monitor with a simple installation process.
- The spring mechanism counterbalances the weight of your monitor allowing you to adjust the viewing angle very easily and without any tools.
- Just rotate the monitor to go from landscape to portrait display. And when you need a break, just push the monitor and fold it away.
- Convenient cable management system to keep cables out of sight and organized.
- Its grommet and C-clamp mount base with adjustable height accommodates most desks.
- Hardware kit included.
