Quiet and responsive keyboard

Fast access and multimedia keys

Integrated hand rest

LED indicator

6-button ergonomic mouse (800,1200,1600dpi)

Plug and play configuration

Greater comfort for an increased productivity

Posture and comfort are vital in a professional environment. This premium wireless keyboard and mouse combo features an ultra-slim, full-size, quiet, and responsive keyboard with an integrated hand rest that helps maintain a more natural and restful wrist position during long work sessions. Experience a soothing typing experience thanks to the low-profile keycaps with a soft touch feel. Plus, enjoy the versatility of dedicated multimedia and hot keys so you can directly access and control common functions and applications such as internet, music and video playback, sleep/wake mode, and more. The premium 6-button mouse with optical sensor allows you to move the cursor with flawless precision and offers a contoured shape that feels intuitive under your hand. A proper palm support relieves your hands from excessive strain and swelling caused by continuous typing and stress. Ditch cable clutter for a tidy desktop setup by simply plugging the nano receiver into the keyboard's USB port, and roam freely to work at an extended distance of up to 33 feet.

Highlights

- Silent and highly responsive keyboard for excellent performance
- Integrated hand rest for relaxed typing supporting a good posture and a wrist position that feels natural, offering maximum comfort even after long work sessions
- 20 multimedia and hot keys to access and manage Internet, email, music, and more
- Low-profile key caps for a smooth and quiet typing experience
- Ergonomic 6-button mouse with adjustable DPI and highly responsive control of the cursor
- Sleep timer for automatic sleep that saves energy and extends battery life
