The sound of a free spirit

You know that friend who's always the life of the party? The one who kicks the tunes up a notch and has everyone singing and dancing along, who is always down for an adventure or an impromptu road trip at a moment's notice? Well, the GrooveSplash from Klip Xtreme is that energy, that joy and that free spirit in speaker form. It is super lightweight and compact, so slip it into your backpack, hang it from the handlebar of your bike or simply carry it in the palm of your hand and take it with you outdoors, regardless of the weather. It is waterproof, so no worries, keep doing those daring dance moves under the rain, jump in the pool or enter the beach with your music, just because when you say, "let's have fun", you really mean it.

No matter if you are a pool party buff, if you are more inclined to rooftop get-togethers or love street dancing for a crowd, this mighty 6W speaker will always blast your playlist with crisp sound and powerful bass with the combination of a 45mm driver and a passive radiator. It is Bluetooth® V5.3-compatible and has been enabled with TWS technology, so you can wirelessly link it up with a twin speaker if you want to open out the space, expand the dance floor and fill it with your music vibrating in stereo. And that "My favorites" playlist you love so much, well, just start making it a lot longer, because it has a built-in rechargeable battery lasting approximately up to 12 hours² of playback to party from dusk till dawn.

Highlights

- 6W waterproof portable speaker with Bluetooth® compatible wireless technology.
- TWS technology allows you to stream audio through two identical units⁴ simultaneously at up to 32 feet, so you can open out the space and fill it with your music vibrating in stereo².
- The 1500mAh built-in rechargeable battery offers approximately up to 12 hours² of playback on a single charge. Then, that "My favorites" playlist you love so much, just start making it a lot longer.
- IPX7 water protection rating¹.
- The 45mm driver delivers a remarkably powerful, high-quality sound output, complemented by a 45 x 40 mm passive radiator producing superb bass effects.
- The built-in microphone allows you to engage in hands-free conversations just by pressing a button.
- USB-C® charging port to deliver a fast 3-hour pass-through charge.
- The speaker has a lightweight and compact design with a sturdy woven fabric mesh and a soft rubberized housing. And speaking of portability, it also comes with a convenient string to hang it from the handlebar of a bike, a hook on your backpack or a bench at the park, so your music goes with you wherever you go.
