Foldable wireless keyboard with touchpad compatible with Bluetooth®

Spanish keyboard compatible with

Are you one of those digital nomads or “content creators” who never stay still in one place and spend their time working, writing, vlogging – or whatever it is you do – and traveling at the same time? Then FlexPlit is the perfect complement to your life on the go.

This ultralight, ultra-slim keyboard, with its elegant minimalist design, powerful and stable wireless connection and wide compatibility, will make the world seem small to you. It is foldable – which can reduce its already compact size by half – so you can slide it into your backpack or even your pocket and improvise a desktop wherever and whenever you need one. With a single two-hour charge, you can use it for up to two full days! And if that wasn't good enough, it has a super-sensitive touchpad, so you can forget about the mouse, as well as smooth and silent typing, all so that ideas flow in perfect synchrony with your fingers.

Highlights

- Ultra-slim, lightweight, foldable design that's the ideal size to easily carry in your pocket or bag wherever you go.
- Seamless wireless connectivity for use with your Bluetooth®-enabled iOS, macOS, Android™, or Windows devices, up to 10 meters away.
- Large, high-sensitivity built-in touchpad with multi-touch function.
- Highly responsive, soft-touch, quiet keys for fast, accurate, distraction-free typing.
- Built-in rechargeable battery that lasts up to 48 hours of continuous use.
- Strong, durable frame and hinges made of premium materials for intense, long-term use.
