9-in-1 Docking station

Wireless charging pad

Adjustable height and tilt

The all-in-one practical solution to upgrade your workstation... and make it look cool.

Your productivity will greatly benefit from the seamless integration of multiple platforms and interfaces in DockStar, Klip Xtreme's compact and versatile 9-in-1 docking station with an integrated laptop stand and wireless charging pad. This hybrid was especially designed for professionals like you to optimize connectivity, space, and time, also adding comfort and mobility -and a lot of style, it must be said- to the equation. Its wide compatibility allows you to tidy up your desktop, keeping your laptop, tablet and other essential mobile devices powered up, charged, and interconnected within reach of your hands. Thanks to the ergonomic, Z-type lightweight design of the stand, you can adjust its height up to your eye level and tilt the laptop tray to prevent neck and back stiffness during long working hours. You can also fold it compactly to fit your bag and carry it around wherever you go.

Highlights

- Versatile 9-in-1 dock station and laptop stand with a USB-C® 100W PD port, a 4K HDMI® port, three USB-C® 3.0 ports, TF and SD™ card slots, and a wireless charging pad. All ports in the hub can work at the same time.
- Fits most laptops under 16 inches.
- With the HDMI® port you can connect a larger monitor or TV to mirror or expand your laptop screen with resolutions that can reach up to 4K UHD.
- Built-in SD™ and microSD™ memory card slots with data transfer speeds of up to 5Gbps to easily access, back up, and share your photos and data without the need for additional external adapters or card readers.
- The three USB 3.0 ports enable data transfer speeds of up to 5Gbps, ten times faster than your regular USB 2.0.
- USB-C® PD port supports up to 100W power input to get the fastest pass-through charging for your laptop or tablet.*
- Built-in wireless charging pad compatible with Android™, Apple and other platforms to charge smartphones and other devices within the 5W/7.5W/10W/15W range.
- The height and tilt angle of the laptop stand can be adjusted for added comfort. Its collapsible design makes it easy to carry around, and it even fits in your travel bag.

Specifications

Features	
Product type	9-in-1 Docking station with laptop stand and wireless charging pad
Adjustable height	Around 7.08 in
Adjustable width	Nonadjustable width
Weight supported	22.04 lb.
Compatibility of laptop size	Up to 15.6"
Height level adjustment	180 degrees
Physical appearance	
Material	Aluminum alloy and silicone
Color	Space grey
Product dimensions (Unfolded)	10.23 x 9.56 x 1.37 in
Product dimensions (Folded)	10.23 x 6.41 x 13.18 in
Product weight	31.7 oz
HUB information	
Connector type	PD input 3 x USB 3.0 SD™/microSD™ HDMI® 4K Wireless charging pad Laptop stand
Power delivery (W)	100 W
USB-C® ports specs	3.1 Gen 1
HDMI® port specs	4K / 60Hz
USB 3.0 ports specs	5Gbps
SD™ card port specs	5Gbps
TF card port specs	5Gbps
USB-C® wire gauge (AWG)	32AWG + 24AWG
Conductor material	Tinned copper
Jacket/Construction material	PVC
Shielding material	Aluminum foil
Contact material	Tin plated
Transmission speed/rate	5Gbps
Cable length	470+/-30mm
Supported OS	Windows OS & macOS 9.1 or higher
Wireless charger specs	5W/7.5W/10W/15W
Additional information	
Operating temperature	(-20 °C~40 ±3 °C)
Storage temperature	(-20 °C~55 ±3 °C)
Relative humidity	Working humidity: 20 ~ 80% Storage humidity: 10 ~ 90%
Packaging content	Color box
Package dimensions	10.62 x 11.49 x 2.36 in
Package weight	Around 30.03 oz
Warranty	One year

*If a laptop displays a 'slow charge' warning when connecting to the Dockstar, this is not due to a fault in the docking station, but rather the specific charging capacity of the laptop or adapter being used. To take advantage of the optimal charging capacity of the docking station, you must connect an electrical adapter with a higher power capacity than that required by the laptop. It is recommended to use an adapter between 65W and 100W.
