KDC-400

Technical specifications

PowerDesk Spin	KDC-400
Product type	3-in-1 15W Wireless charger station with advanced rotation mechanism
Input	
Input DC voltage	DC 9V/3A; 5V/3A[4]
Charging connector type	USB-C®
Charging cable	4.92 in long 3A USB-C® to USB-C® fast charging cable
Output	
Output types	•Wireless charging pad for smartphones •Wireless charging dock for Apple Watch®, •Wireless charging dock for Airpods® or any TWS earbuds with wireless charging case[2]
Output power	•Charging pad for smartphones: 5W/7.5W/10W/15W max.[1] •Charging dock for Airpods® and other TWS earbuds: 2-2.5W •Charging dock for Apple Watch®: 2-2.5W
Other Characteristics	
Special features	•Qi2® certified •Compatible with MagSafe® and most smartphones with magnetic wireless charging •One-touch 180° rotating pad for horizontal or vertical[3] charging •Multifunction LED indicator •Foreign Object Detection (FOD)
LED status indicator light patterns	•Power on/Standby mode: Static white •Smartphone charging mode: Breathing blue •FOD (Foreign Object Detection): Flashes 6 times blue
Physical Appearance	
Material	Aluminum Alloy /ABS plastic /Glass
Dimensions	2.99 x 2.99 x 4.09 in
Weight	12.41 oz
Package content	3-in-1 charging station, fast charging cable, stick-on magnetic metal ring, quick user guide
Warranty	1 year

1. 15W is the maximum output power of the three charging pads combined. The specific charging power and speed for each connected device will ultimately depend on its type, size, battery capacity and charging technology.
2. Charges Airpods® and TWS earbuds when inside a wireless charging case.
3. Applies to smartphones supporting magnetic wireless charging only. Non-magnetic smartphones will not stick to the pad in the tilted position. Alternatively, use the stick-on magnetic ring provided to securely hold a non-magnetic device enabled with wireless charging in the tilted position. You can also use the pad in the horizontal position.
4. Adapter not included. It is recommended to use a 30W min. adapter with built-in protection technology that meets basic safety standards.
