Integrated power strip
3 NEMA outlets

We welcome you with open arms never better said

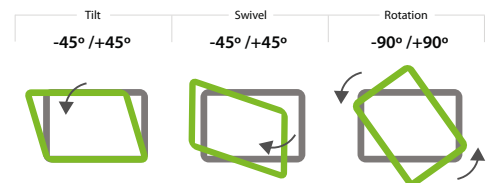

We bet right now your desk is cram-full of all sorts of devices; and still, you know you will always need to cram in yet another one, don't you? So, let's tidy up your workstation or battle station and make room for all your present and future gadgets with Klip's KMM-510 dual monitor mount. This sturdy metal bracket with flexible arms can hold two (2) monitors and will help you get the right viewing angle and ergonomic posture to help you focus, reduce visual fatigue and alleviate the strain on your neck and shoulders after long hours of work, *streaming* or gaming. But if great didn't feel good enough, we added a special perk to make it just perfect: an integrated power strip so you don't have to crouch under the desk and shuffle cables to plug in your everyday gear every single time. So, connect your smartphone, laptop, tablet or any other device you need to power or charge directly to the power strip without burning one single calory. Yeah, it's ok to get lazy in the small things so you can sweat over and keep yourself busy only on the big stuff.

Highlights

- Sturdy, professional-grade dual monitor mount that fits flat or curved screens of up to 32 inches and weighing up to 17.6 lb. with complete stability.
- Integrated power strip with three 110V NEMA outlets to power your devices without needing to reach out for the wall outlets.
- USB-C® and USB-A 3.0 ports allow you to keep your smartphone or tablet close at hand while you charge them.
- Detachable VESA-compatible plates make mounting your monitors easy as ABC.
- Rotate your monitors from landscape to portrait format without disassembling them.
- Four joints on each arm to easily extend or retract them. Move your monitors toward you for greater comfort, or away from you when you just need a screen break.
- A convenient cable management system will keep all those annoying cables organized and out of sight.
- Grommet and C-clamp mounting designs with adjustable height to fit most desks.
- Hardware kit included.
