## Unlocking your true inner self, one beat at a time

Let's be real, the world is loud, hectic, and full of unwanted sonic garbage. Amidst that noise-polluted chaos, the all-new **Escape** headphones from Klip Xtreme stand out for letting you open a hushed parallel dimension, a small quiet sanctuary that looks like an aureole on your head, where you can shut out up to 20 decibels of sound anarchy and finally hear your true inner self in harmony with the music that you love and defines you. Featuring the latest, most optimal active noise cancellation technology available, the Escape will create a blissful vacuum sealed off from honking cars, loud urbanites, and barking dog pandemonium, while producing an extraordinarily crisp, balanced audio with its powerful 40mm drivers that will rekindle your appreciation for previously unperceived musical nuances in your favorite playlist.

Armed with the latest Bluetooth® v5.3-compatible wireless technology, music is streamed seamlessly up to 33 feet away from the audio source, and we included a 3.5mm aux port and its cable in case you need to go wired anytime. The built-in HD microphone allows you to make clear calls even in windy or boisterous environments. Then there is the foldable, adjustable headband and the pillow ear cushions that gently surround your ears, all carefully crafted with premium quality materials to provide maximum comfort during extended periods of time. And talking about time, the efficient 500mAh battery offers up to 49 hours of wireless playtime with the ANC off, and 32 hours with ANC on! So, squeeze it all day long if you like, but you'll run out of songs before it runs out of juice.

## Highlights

- Latest Active-Noise-Cancelling technology<sup>3</sup> to shut out up to 20dB of unwanted noise for an exceptionally private, immersive listening experience.
- Experience ultimate freedom with the latest Bluetooth® v5.3-compatible streaming technology thanks to its higher speeds and expanded range<sup>1</sup> and capacity. Music can also be enjoyed endlessly in wired mode via the 3.5mm auxiliary port and the included detachable cable.
- Extended playback times: Up to 32 hours with Bluetooth® and ANC enabled, and 49 hours with ANC off<sup>2</sup>. So, chill out, no rush.
- Listen to a wide spectrum of neatly perceivable, fine-tuned acoustic details, delivered through high-performance 40mm drivers.
- The built-in HD microphone filters ambient noise for seamless, clearer hands-free calls management.
- Full on-board controls to power the headphones on and off and manage volume and the ANC function with just a touch.
- Ultralightweight design with an adjustable headband and foldable, well-cushioned earcups for all-day comfort and easy portability.

(1) Range estimate is based on an area free and clear of obstacles and interference, and within the line-of-sight between both Bluetooth® v5.3-compatible devices.

(2) Estimated battery run time may vary depending on the volume settings and the type of audio files being played.

(3) Active noise-cancelling capability reduces unwanted ambient noise.
