

# PowerMag 10,000

Portable magnetic power bank compatible with MagSafe® and magnetic wireless charging smartphones

**10,000 mAh**  
High-grade li-ion polymer battery

Smartphones, tablets<sup>1</sup>  
Apple Watch® and other small devices

**2 times**  
full charging cycle<sup>2</sup>

**Wireless charging**  
compatible with MagSafe® & Qi® (15W max.)<sup>2</sup>

**USB-C® output port**  
20W max.<sup>2</sup>

## Magnetic power

Introducing the PowerMag 10,000: the ultimate Klip Xtreme portable magnetic power bank. Designed for MagSafe® and magnetic wireless charging smartphones, this sleek 10,000mAh li-ion polymer battery allows you to charge two devices simultaneously. With an ultra-slim, lightweight design, it fits effortlessly into your lifestyle. Stay stylish and powered up with the PowerMag 10,000, your perfect on-the-go charging solution.

## Highlights

- 5-level LED charging/battery indicator
- 8-mode advanced multiprotection system
- Charge two devices simultaneously
- Stick-on magnetic ring included for wireless charging of non-magnetic compatible devices
- Ultraportable, ultra slim & ultra lightweight
- Strong magnetic hold

## Technical specifications

General information	
MPN	KPB-600
Product type	10,000mAh magnetic power bank
Battery capacity	10,000mAh/ 38.5Wh
Input	
USB-C® DC voltage	5V/2.4A, 9V/2A
USB-C® charging time	1.5 – 2 h
Output	
Charging ports	2 (USB-A, USB-C®)
Wireless power	5W, 7.5W, 10W, 15W
Apple Watch	1.5W
USB-C® DC	5V/3A, 9V/2.22A, 12V/1.66A (20W PD max.)
Magsafe® compatible	Yes
Physical appearance	
Housing material	ABS
LED indicators	To show battery status (5 levels)
Switch button	Included
Product dimensions	4 x 2.6 x 0.6 in
Product weight	6.3 oz
USB-C to USB-C® cable specs	11.8 in, 3core 3A
Additional information	
Efficiency (full load)	58% - 60%
Power conversion	74%
Box content	Magnetic power bank, fast charging cable, magnetic ring, QIG
Standards/ certifications	CE, FCC, RoHS
Operating temperature	-4 – 140 °F
Storage temperature	14 – 140 °F
Relative humidity	≤75%
Warranty	1 year

1. Tablets will charge only in wired mode via the USB-C® fast charge port.

2. Values based on a device with a 3,200mAh battery. Actual per port charging power and speed may vary depending on how many ports are in use simultaneously, as well as the type, size, battery capacity, and charging technology of each connected device. Wireless charging power for iPhones will be 7.5W maximum, and the battery level must be at least 50% to support fast charging.
