C-clamp/Grommet base  
configuration

## Unlimited flexibility, enhanced productivity, non-stop gaming

The KPM-300 allows you to reclaim your valuable desktop space, while promoting a more ergonomic posture for your work station or play station. This rugged, black finish mount is constructed of high-grade steel. Its sturdy C-clamp base offers superb stability when attached to the edge of a desk or table. A removable VESA plate makes installation much easier by screwing it into your monitor and then sliding it back onto the arm. Its fully articulating mechanism swivels and tilts to change reading angles, and rotates from landscape-to-portrait without having to remove the screen.

## Specifications

Monitor screen size	13 to 32 inches
