Project visually compelling images from a whole new dimension

Enhance every presentation with this reliable and functional Universal Ceiling & Wall Projector Mount from Klip Xtreme®. Designed to dramatically expand your viewing capabilities, it is compatible with most data and home theater projectors weighing up to 44 lb. Quick and easy to install, this mount features an adjustable hollow pole that conceals cables for a clean, professional look. Its extendable mounting legs and universal plate design support a wide range of mounting patterns, ensuring compatibility with most projector models on the market. Durable construction and an attractive white finish deliver a modern, streamlined appearance, making it ideal for living rooms, classrooms, hotels, conference rooms, and other professional environments.
